Professional Summary

Full-stack developer and B.Tech CSE graduate building MERN-stack web applications with React.js, Node.js, Express.js and MongoDB. Experienced in REST API design, token-based authentication with OTP verification, and AI integrations using Gemini and Vapi APIs. Also built ML-based systems in Python and Flask, and deployed projects on Vercel and GitHub Pages. Seeking an entry-level Full Stack or Software Developer role.

SKILLS

- **Programming Languages:** C++, Java, Python, JavaScript, TypeScript, HTML, CSS
- **Libraries / Frameworks:** React.js, Node.js, Express.js, Flask, Bootstrap, Tailwind CSS, Three.js, Framer Motion
- **Database:** MongoDB, MySQL, PostgreSQL
- **Tools / Platforms:** Git, GitHub, Postman, VS Code, Vercel, GitHub Pages
- **APIs / Services Used:** Vapi API, Gemini API, TMDB API, EmailJS
- **Concepts:** REST API Design, Token-Based Authentication, OTP Verification, Responsive UI Design
- **Machine Learning:** CNN with Attention Mechanisms, XGBoost, LightGBM, Feature Engineering

EDUCATION

Kalasalingam Academy of Research and Education Aug 2022 – May 2026
B.Tech in Computer Science and Engineering | CGPA: 7.78/10

Narayana Junior College, Andhra Pradesh Aug 2020 – May 2022
Board of Intermediate Education | Percentage: 75.3%

Sree Surya Vidyaniketan, Andhra Pradesh July 2019 – Mar 2020
Board of Secondary Education | Percentage: 96.8%

PROJECTS

BrewNest Coffee & Tea Platform GitHub | BrewNest Link

- Built a full-stack coffee and tea store with a React frontend and a Node.js/Express REST API for products, offers, login and orders.
- Added OTP-based registration, hashed passwords and token login, with order totals calculated on the server.
- Tools Used: React.js, TypeScript, Vite, Tailwind CSS, Node.js, Express.js, REST API

Acharya Path: Learn, Code & Certify Live Demo

- Built a learning portal with courses, lessons, quizzes and a coding practice arena that runs JavaScript solutions against test cases.
- Added progress tracking, XP, printable certificates and a user profile, with data saved in the browser.
- Tools Used: HTML5, CSS3, JavaScript, Tailwind CSS, localStorage

Travel Explorer: Discover India Live Demo

- Built a tourism website with 47 destinations, with search, category, state and budget filters.
- Added a trip budget planner, favourites wishlist, saved trips and a form to add new destinations.
- Tools Used: HTML5, CSS3, JavaScript, Tailwind CSS, localStorage

Future Me: Time-Locked Message Capsules Live Demo

- Built a web app to write messages that stay locked until a chosen date, with a live countdown.
- Added auto-unlock, light and dark themes, and capsule management (filter, copy, delete).
- Tools Used: HTML5, CSS3, JavaScript, localStorage

AI Interview Preparation

- Developed an AI Interview Prep app with React, Express, and MongoDB. Integrated Gemini and Vapi for real-time voice QA and post-interview AI analysis. Designed a clean, user-friendly interface.
- Tools Used: React.js, Express.js, MongoDB, JavaScript, CSS, Bootstrap, Gemini API, Vapi API

DeepAttend – Deepfake Detection System GitHub

- Built an attention-based deepfake detection system for real-time image and video analysis.
- Applied CNNs with attention mechanisms and forensic texture analysis for accurate classification.
- Deployed a Flask web application with explainable heatmaps and confidence metrics.
- Tools Used: Python, Flask, CNN

Multi-Threat Detection and Supervision of Cyber Attacks GitHub | Live Demo

- Developed an ML-based system to detect and classify cyber-attacks using XGBoost and LightGBM.
- Performed network traffic preprocessing and feature engineering to improve intrusion detection accuracy.
- Implemented real-time detection and monitoring for DDoS, SQL Injection, Port Scanning and Brute Force attacks.
- Built an interactive dashboard to visualize network traffic, attack patterns and security alerts.
- Tools Used: Python, XGBoost, LightGBM

AWARDS and Achievements

- IEEE Paper Presentation: IoT-Based Smart Wi-Fi Announcement System
- 1st Place, Cyber Threat Hunt hosted by OWASP KARE (Oct 2024)
- Participant, Vashisht 25, IIIT Kancheepuram (Mar 2025)
- 3rd Place, IBM Ice Day, KARE (Oct 2023)

EXTRA-CURRICULAR ACTIVITIES

Student Member, IUCEE KARE Student Chapter Dec 2022 – Apr 2026

- Supported event planning, promotion, and technical setup; collaborated on knowledge-sharing initiatives.
